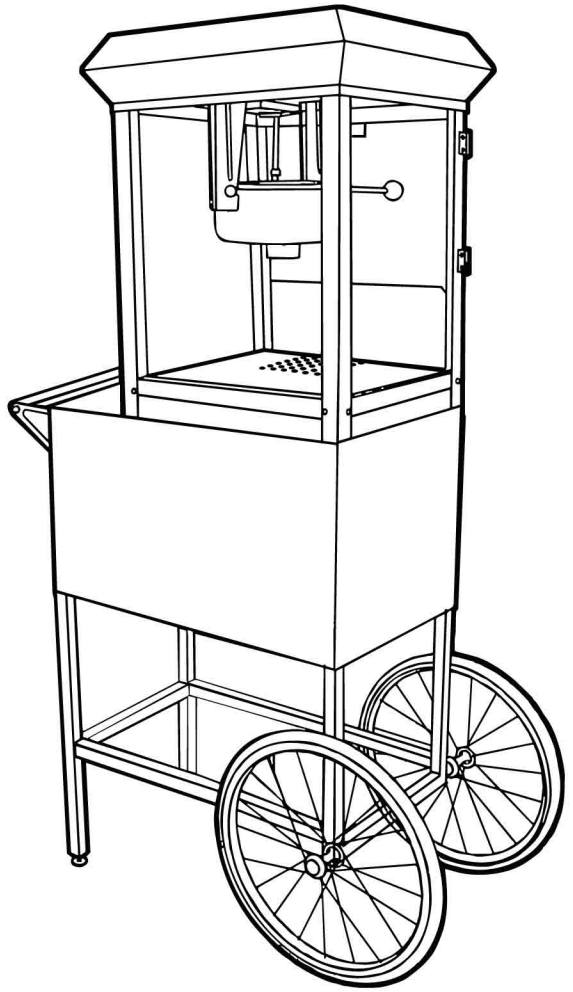
GREAT AMERICAN POPCORN T.M.

COMPANY



POPCORN MAKER
INSTRUCTION MANUAL

Congratulations! You have purchased our best selling popcorn popper for your home or business.

This industrial-strength popper is the same one used by sport stadiums, convenience stores and mini-marts.

We use only the finest grade material and workmanship when manufacturing our poppers. If for any reason our popper doesn't live up to these standards described, please write us at service@greatamericanpopcorn.com.

IMPORTANT SAFEGUARDS

- **READ ALL INSTRUCTIONS BEFORE USING YOUR POPCORN MACHINE.**
- Do not touch hot surfaces. Always use handles or knobs to operate.
- To avoid any risk of electrical shock, do not immerse cord or plug in while water is present.
- Close supervision is necessary when being used near children.
- Unplug main power cord from outlet while not in use and before cleaning.
- Allow hot parts to cool down before moving.
- Do not operate the appliance with damaged cord or plug, malfunction or with any mechanical damages.
- Send the unit to the nearest authorized service center for examination and repair. (ONLY technicians should open up the unit)
- Injury may occur if using any accessories or attachments not provided or recommended by manufacturer.
- Do not pop the kernels in a dry pot (without oil).
- Do not immerse popping pot into water.
- Pot surface is ***HOT*** and should ***NOT*** be touched during popping or just after use.
- Unplug, clean and cover the unit and store in a dry and safe place if not being used for long periods of time.
- Do not leave the power cord hanging over edge of table or counter.
- ***DO NOT*** place the unit on or near a hot gas or electric burner or in a heated oven.
- Extreme caution must be used when moving any appliance containing hot oil or other hot liquids.
- Turn ALL switches to "OFF" position before disconnecting power plug from the outlet.
- Not recommended for outdoor use.
- Do not use appliance for anything other than the indicated usage.
- To avoid overheating, always have oil and kernels ready before operating.
- Extreme caution must be used when unloading heated pot, always use oven mitt.
- Always place the unit over a counter-top so that residual hot oil or water running out will not cause injury.
- ***KEEP OUT OF REACH OF CHILDREN.***
- Do not clean using any abrasive material.
- Never force any parts or brackets into position.
- No parts are intended for the dishwasher.
- Save these instructions for future reference.

PARTS LIST

A. Main unit x 1 pc.
B. Popping pot x 1 pc.
D. Hand rail x 1 pc.
E. Square pole x 2 pcs.
F. Long stand x 1 pc.
G. Short stand x 1 pc.
H. Wheel axis x 1 pc.
J. Wheels x 2 pcs.
K. Storage cabinet x 1 pc.
L. Popcorn scoop x 1 pc.
M. measure cup set
N. Parts x 1 box include:

- Package A, plated bolts x 8 pcs. - nuts x 8 pcs. - washers x 8 pcs.
- Package B, bolts x 8 pcs. - washers x 4 pcs.,
- Package C, metal sleeves x 2 pcs. - nuts with round cap x 2 pcs. - washers x 2 pcs.
- Package D, wrench x 2 pcs.

Please Note: First time use, clean inside glass and wipe inside area with damp sponge. Thoroughly wipe inside of stainless steel pot with clean damp sponge before heat is applied.

ASSEMBLY PROCEDURE

1. Use bolts & washers (Package B) provided to connect the Long stand (F) and the 2 pcs square pole (E) together.

2. Connect the completed above (step 1) with the short stand (G) by the bolts & washers (Package B)

3. Insert axle (H) into short stand (G). Place wheels (J) on each end of axle (H). Next place washers (Package C) onto each side of wheels (J) and then attach round cap nuts by wrenches provided (Package O).

4. Turn the storage cabinet (K) up side down for convenient assembling. Insert both ends of the short and long stand onto the bottom of cabinet and attach by bolts (Package B).

5. Turn the completed unit back to up-right position. Install the handrail (D) onto the left hand side and the working platform (C) on the right hand side by nuts and bolts with washers included in (Package A).

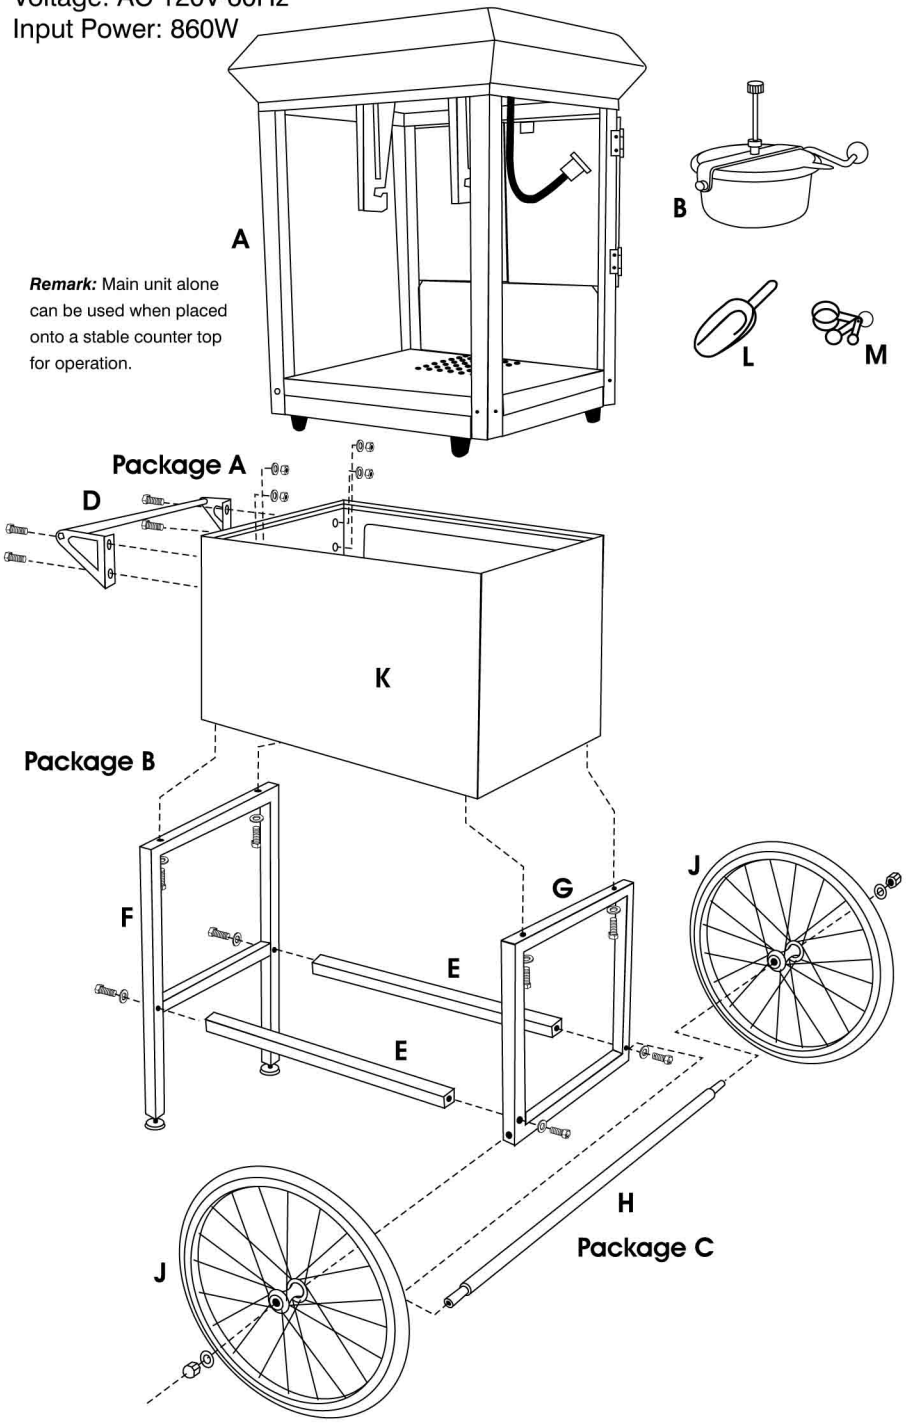
6. Place the main unit (A) onto the topside of the storage cabinet. (***Caution:*** Power cord outlet should be inserted into the u-shape position).

7. Place the pot (B) onto the hanger. (***Note:*** Roller bar should be on the door side and also check if gears between pot and ceiling are perfectly matched).

8. Connect the power plug from the main unit ceiling with the socket on the bottom of the pot.

9. Open the door of the storage cabinet and release the two spring shafts beneath the main unit in order to fix the main unit with the storage base.

Model No.: UE40010
Voltage: AC 120V-60Hz
Input Power: 860W



OPERATING PROCEDURE

1. Place the corn popper on a dry, level surface. Protect from rain and other weather elements. Do not install near pool or water outlets. Plug the unit into suitable grounded electrical outlet.(Please check if the outlet voltage is matches the rating label specified next to the power cord).
2. Main unit has 2 function switches as follows:

(I) Spot light & warmer

(II) Pot Heater

3. Hook the stainless steel pot onto the hanger of the main unit. (***Note:*** Roller bar should be on the door side and also check if gears between pot and ceiling are perfectly matched).
4. Plug in the power cord (hanging from the main unit ceiling) into the bottom of the stainless steel pot.
5. Switch the light and heater to ON(I & III). Popping pot should be pre-heated for 3 to 5 minutes. If using The Great American Popcorn Co. Gourmet Tri-Pak, cut off top of oil section on pouch and squeeze oil into pot. Allow a few minutes to melt oil. (Fig. 1) If using other suitable ingredients, have pre-measured portions ready in advance. Add oil. (Fig. 1). (Max. 15g/.48 oz. oil)
6. Next pour popcorn and seasoning from Gourmet Tri-Pak pouch into pre-heated oil. (Fig, 2) If using other suitable ingredients, have pre-measured portions ready in advance.(4 oz. max. uncooked popcorn kernels). Add popcorn. ***Caution:*** Lid is hot, recommended wearing oven mitten to contact metal pieces. Close lid.
7. Switch the Stirrer to ON (II) so that it starts stirring.(Fig. 3)
8. Close the doors on the main unit carefully.
9. Popcorn starts popping out through the lid after about 2 to 3 minutes. (Fig. 4)
10. When popping stops (no more popping sound from pot), switch the stirrer and heater to OFF (II & III) Popping is completed. Rotate the roller bar on the pot and pour out all remaining popcorn. Gently shake if necessary.
11. Heater switch (III) must remain OFF if the unit is not popping. Only the spot light warmer should be left ON, this will keep the popcorn warm, dry and tasty for a longer period of time.
12. Serve popcorn with scoop provided. ***Note:*** Do not add butter or other liquid flavoring in main unit popcorn bin. Avoid a big mess! Remove popcorn to suitable serving bowl or popcorn before adding this type of flavoring.
13. Always remove plug from power supply before cleaning and if the unit is not being used for a period time.

CLEANING AND MAINTENANCE

- To maintain quality taste and popping conditions in your popper, it is recommended that you thoroughly clean the heat pot after using 3 to 4 times or before prolonged periods of storage.
- Switch OFF (II & III). Pour 6 to 10 oz. of water (NO detergent is necessary) into inner pot.
- Switch ON the stirrer (II) and heater (III) to boil the water and allow the stirrer to rotate that will help remove debris on kettle surface. Pour out the water after about 1 to 2 minutes of boiling. ***Caution:*** Hot kettle! Handle with oven mitts. Keep children at a safe distance from popper during procedure.
- Repeat the same procedure 2 to 3 times to get better result.
- Switch off the machine and wait for the popping pot to cool. Clean the inside and outside of the pot by brush and wet towel. ***Caution:*** DO NOT immerse the heat pot into water.)
- After using the popcorn machine, users should use wet towel to clean up the main unit, main body and glasses; It is strongly recommended to tidy up rubbish tray frequently so that there is no food spoilage left behind.

Caution

- **After popping cycle is complete, the popping pot will be very hot. Use extreme care when handling.**
- **Remember to turn the heat switch to off position after the finish of the pop cycle.**
- **Unplug unit *BEFORE* removing heat pot from hanger. Use caution not to bump heat lamp bulb during pot removal.**
